DIVISION OF  
**CRIMINAL LAW**

# OUR MISSION

## DIVISION OF CRIMINAL LAW

Uphold the Attorney General's constitutional responsibility to represent the People of California in criminal cases.

Our Division is organized into the following six sections:

### Appeals, Writs and Trials

handles post-conviction proceedings, including prosecuting felony criminal appeals in state court and representing the state in habeas corpus cases brought in federal court. Deputies also handle criminal investigations, conduct evidentiary hearings, and prosecute felonies in cases in which the local district attorney has been recused. Deputies appear regularly in the California Court of Appeal, California Supreme Court, United States District Court, and Ninth Circuit Court of Appeals.

### Bureau of Medi-Cal Fraud and Elder Abuse

conducts statewide investigations and prosecutes fraud relating to the activities of medical providers receiving funding under the Medi-Cal system. The section also reviews and prosecutes reports of elder abuse and neglect of patients housed in federally funded nursing home facilities.

### Correctional Writs & Appeals

represents the state in civil rights actions involving state prisoners. This section also represents the Department of Corrections, Board of Prison Terms, Youth Authority and the Department of Mental Health and their employees in cases regarding policies, practices or conditions of confinement of inmates.

### eCrime Unit

investigates and prosecutes multi-jurisdictional cases involving identity theft, cyber-crime, and criminal activity involving the use of electronic devices or networks. The Unit also participates in regional high-tech task forces and provides training and support to local agencies on technology-related crime issues.

### Financial Fraud and Special Prosecutions

investigates and prosecutes complex criminal cases occurring in California, primarily related to financial, securities, mortgage, and environmental fraud; public corruption, including violations of California's Political Reform Act; "underground economy" offenses, including tax and revenue fraud and counterfeiting; transnational organized crime and human trafficking. Vertical teams of prosecutors, investigators, auditors, and paralegals often work with federal and local authorities on cases involving multi-jurisdictional criminal activity.

### Victims' Services Unit

provides assistance, notification, information, and support to victims and their families in criminal trials and appeals prosecuted by the Attorney General's Office. VSU also monitors and responds to public inquiries received from crime victims and advises victims of their rights as enacted in Marsy's Law and related measures.
